ABOUT

Results-driven software enthusiast and accomplished Tech Lead at Xendit, a leading Southeast Asian Fintech company, with 8+ years of expertise in diverse coding languages. A polyglot developer specializing in Full Stack, Database Tools, Testing tools, and AWS. Proven track record in troubleshooting complex scenarios across platforms.

Co-founder and former CTO of an e-commerce startup, instrumental in establishing the tech stack from inception to execution, demonstrating hands-on leadership and strategic contributions to business technology foundations.

IT SKILLS

Frontend Development	:	ReactJS, Redux, Angular, JQuery, BootStrap, HTML, SCSS
Backend Development	:	NodeJS, Golang, AWS, Kubernetes, RabbitMQ, SQS, Serverless, Firebase, Python
Blockchain Development	:	Solidity Smart Contracts using standards (ERC20, ERC721,..), Javascript frontend integration using Web3, Ganache local testing
Database	:	PostgreSQL, MongoDB, TimescaleDB, Firestore
Testing	:	Jest, Ganache, Mocha, Chai, Jasmine, Cypress

WORK EXPERIENCE

Xendit (PT Digital Indo Raya)
Jakarta, Indonesia

Tech Lead (September 2022 – Present)
Senior Software Engineer (February 2021 – August 2021)

- Integrated with all major banks in Indonesia, and The Philippines to create a payment gateway platform.
- Integrated with communication channels such as WhatsApp, Viber, Twilio, and SendGrid, to ensure timely delivery of all notifications to customers via their preferred channel.

ODD (On Demand Deals)
Pasig, Philippines

Co-Founder & Chief Technology Officer (May 2021 – September 2022)

- Co-founded a pandemic-born company focused on seamless, doorstep grocery delivery within minutes, eliminating the need to venture outdoors.
- Established a technical vision with the development team. Developed all SaaS in-house.
- Grow the company from 0-1 with USD 897k TPV in just 6 months. Build a team of 52 people and 70+ locations across Metro Manila with total seed funding of USD 480k.

PDAX (Philippines Digital Assets Exchange)
Manila, Philippines

Senior Software Engineer (November 2019 – February 2021)
Software Engineer (March 2018 – November 2019)

- Led payments integrations team at PDAX, overseeing integration with major payment providers.
- Worked on Solidity Smart Contracts using ERC20 and ERC721 standards for the PDAX-based coins.
- Worked on Trade Exchange frontend using ReactJS, Redux and Complex Timeseries Graphs.

Primus Software Corporation
Noida, India

Full Stack Developer (March 2018 – July 2018)
Frontend Developer (September 2017 – March 2018)

As a Full Stack Developer, I engaged with clients, translated their needs into solutions, and directed the development team. Additionally, collaborated with the Business Development Team on Proof of Concepts, aiding in securing new projects.

OSGRIP Technologies LLP
Greater Noida, India

Co-Founder *(April 2015 – February 2017)*

Co-founded a startup during my second year of graduation in the college's Microsoft Innovation Center incubation program. Created a digital ecosystem to streamline tasks, overseeing a technical vision and leading the development team. Successfully developed Android apps, web apps, and websites. Expanded the team to 15+ members, managing concurrent projects with diverse teams.

EDUCATIONAL QUALIFICATION
